Daniels

Christophe Delcourt

DESCRIPTION

The Daniels seating system redesigns the living areas with brand new compositions, in which regular curves and ellipses interrupt the linearity of the layouts. Comparable to a landscape design project, where carefully plotted combinations of elements create a new domestic scenery, the Daniels seating system redesigns the living areas with brand new compositions, in which regular curves and ellipses interrupt the linearity of the layouts, imbuing them with a more dynamic momentum. The system offers an alternative to the fixed armrest, in the form of a removable ottoman, in leather or fabric, on wheels. With its design-based, modular, versatile and innovative qualities, Daniels introduces original and unexpected structural details and compositional elements with a dynamic, contemporary rhythm.

DIMENSIONS

available in a wide range of dimensions and configurations, including custom sizes and configurations to suit the requirements of any space

FEATURES

- upholstery in a range of fabrics and leathers
- covers removable
- legs in cast aluminum, varnished glossy pewter color with anti-fingerprint finish
