# Drape Arm 1

SkLO

## **DESCRIPTION**

The *drape arm 1* sconce consists of a single lit glass sphere suspended from a moveable arm. The glass sphere is 4 1/2" (11cm) diameter and is suspended from the end of the hinged arm by a length of fabric-wrapped electrical cord. The exposed cord passes through the end of the arm and returns to a hole in the canopy at the wall. The light is of solid brass construction throughout. The hinged arm has a full 180-degree horizontal swing.

## **FEATURES**

- glass available in transparent clear, olive, and smoke or opaque new blue and white
- standard metal finishes are dark oxidized or brushed brass, with others available upon request
- cord color options are black, blue, gold, or gray
- solid brass canopy with exposed fasteners

## **DIMENSIONS**

- 4.5"Ø sphere, 18" arm, 15" drop
