DESCRIPTION

Form Table is part of the Form family of contemporary furniture. In this range simplicity is a key element.

The Form Table is made of oak and linoleum, which are high-end natural materials that add durability and give the table an exclusive look. The matt linoleum is pleasant to the touch and easy to maintain.

As an addition to the Form dining tables is a smaller café table in three different heights. The tables are adjusted to the Form chair and the two heights of Form barstools so that they complement each other proportionally. The Form café table is particularly well suited to the decor of bars, restaurants, lobbies and receptions, but will also work perfectly in a kitchen's little eating area in private homes.
