Heracleum Endless

Bertjan Pot

DESCRIPTION

A perpetual blossom of new branches that multiplies by the meter, Heracleum Endless by Bertjan Pot may really grow out of reach! There is hardly a limit to what Heracleum can now achieve by developing in straight lines, generating corners and forming square geometric shapes.

FEATURES

- metal wire frame, poly carbonate lenses, ultra thin suspension wire
- available in nickel and copper
- leaves can be freely re-positioned
- bend pieces in 90° or 135° available to connect chandelier units
- larger "O" and chandelier versions available

DIMENSIONS

- 45.7"L x 22.4"D x 14.6"H
