Hold Sconce

Sklo

DESCRIPTION

The SkLO *hold* vessel, an expressive glass vessel which appears to droop from its hook as if molten, serves as a diffuser on this wall sconce. Available in two versions, the *hold 18* (with full-sized hold vessel diffuser) and the *hold 12* (with a smaller version of the hold vessel), and each version is available in both a plug-in and a hardwired version. The glass is handblown without the use of molds, so no two are exactly alike.

FEATURES

- available as either plug in or hardwired
- hardwired available with brass canopy with exposed fasteners
- plug in version has fabric wrapped cord with in-line switch
- plug in cord available in black, blue, gold, or gray
- available in dark oxidized / brushed brass as standard metal finishes (other finishes available on request)
- Hold 18 available in 8 colors
- Hold 12 available in 2 colors

DIMENSIONS

- Hold 12
3"D - 4.5"D x 5"W x 12"H - 19"H
Hold 18
4"D - 5.5"D x 8"W x 18"H - 24"H
