

Joco EOOS

DESCRIPTION

In good shape, Joco is sophisticatedly elegant. The wire structure carries the slim line table top. Apparently weightless but totally stable. The lasered squares on the round table top follow the regularity of geometry. Patterns and light play are the result. The charming occasional table comes in two different heights and sizes. Perfect companions for the personal lifestyle.

FEATURES

- The table top is laser cut aluminum and the frame is powder-coated steel
- Both are painted in black gloss

DIMENSIONS

D17.72" H17.32" D35.43" H10.24"
