Kite Sofa

GamFratesi

DESCRIPTION

A natural evolution of the eponymous armchair, Kite Sofa is a reassuring element in a living environment with its plastic shape resembling a seashell. With its large, compact outline, Kite Sofa unveils its refined details to a keen eye: balanced thicknesses, accurate proportions and the elegant curve of the tubular structure that encircles its internal padding, resembling a haute couture coat with a raised collar, make it a contemporary design item that does not do without artisan finishes and vintage touches, intended for a house suspended through time and style.

FEATURES

- upholstery in a range of fabrics and leathers
- black varnished metal structure
- available as an armchair
