

Liv

Soda Designers – Nasrallah & Horner

DESCRIPTION

A modular series which keeps its elemental structure under wraps – an elegant family that can be arranged in numerous constellations, making it compatible with a wide range of requirements. Compact yet generously proportioned and comfortable, Liv is every inch a contemporary series without dominating its wider setting. Liv is available in a choice of two different seating heights, assuring the highest standards of comfort. The popular modular sofa, Liv offers even more comfort thanks to its optional head support with adjustable height. In addition, there is a new, high back cushion as the perfect complement. This elegant table, available in two different shapes and sizes, rounds out the light and compact elements in the Liv program. While the tables take their cue from Liv's harmonious and precisely executed details and lines, they are also ideally suited as independent side tables for combining with other programs. Tabletops are available in a choice of MDF wood veneer, solid wood, RAL color or with an enameled glass plate. Wittmann.
