

# MINIMA

# Luggage Armchair

Rodolfo Dordoni

## DESCRIPTION

Design based on lightness and Minotti's purest comfort. Sophisticated technology and such a bold technique as to make up a charmingly retro style. What is more, saddle hide results in a unique system of sofas, armchairs, and benches. Refined, smart, timeless saddle hide. There was a time when capable hands cured it, took it away from natures to adapt it in the forms of use. In soft curves, to turn an object into pure fascination. The Luggage Collection is synonymous with material skill, sign, and design. It supports the strength of design and its ability to transmit values.
