MD Shelf

Jaime Hayon

DESCRIPTION

An extrovert performer that doesn't steal the show. With the MD Shelf, you can set beautiful and treasured objects on silky smooth leather shelves – seemingly floating on air thanks to delicate-looking, asymmetrically positioned brackets made from textured powder-coated metal. The tactile experience – leather, cool metal with a textured coating – and the attraction of a broad spectrum of colours stems from the colourful world of the designer. Wittmann has executed the precision handcraftsmanship behind the idea with incomparable finesse.
