Crossing Galactic Paths

Orbital paths of multicolored celestial bodies with hypnotically glowing cores. This ingenious design of hand-blown glass lenses, held together by a metal mounting, creates a fascinating visual experience from different angles.

FEATURES

- single blown glass pendant
- can be arranged as a cluster
- glass available in moon clear, polaris white, mercury black, venus pink
- fittings available in patina gold, nickel, polished gold

DIMENSIONS

- 98" cable
14.2" diameter pendant
