

minima

Raymond

Rodolfo Dordoni

DESCRIPTION

An interplay of shapes and proportions, with a bold asymmetry that seems to defy the force of gravity. This is the ruling aesthetic motif of the collection of Raymond occasional and coffee tables.

FEATURES

- The elliptical shape prevails in both the chromed metal bases and in the glossy lacquered tops that come in a surprising array of colors, including White, Sand, Granite, Green and Purple
- The reflective metal base is available in different heights and allows the tables to be customized for various uses
- With the Raymond tables, Minotti adds a note of sophisticated elegance to the living spaces, in shades that subtly recall the '70s
