

MINIMA

Rise Table

Jasper Morrison

DESCRIPTION

The circular form of the occasional table's top and base make it an appealing decorative accent in any interior. With its continuously adjustable height, it adapts to a wide variety of needs and situations: in its lowest position, it can be used next to an armchair or sofa as a side table and at the highest setting as a serving table or compact work surface. The attractive aluminium tulip base ensures stability and the table top in the same material is equipped with a practical carrying handle.

DIMENSIONS

D19.75" W13.5" H18.75"-26"
