Sag Stool

Nendo

DESCRIPTION

Either stool or table, outdoor or indoor: Sag represents a polyhedral and functional complement. Stool's legs are usually designed with "column" elements. On the contrary, Sag has been designed as a whole piece folded on itself, as a fabric suspended in the air and melted in three directions into a single shape. Its concave arc structure, thus generated, gives Sag its special soft and elastic image, but also an incredible sturdiness, capable of distributing forces and absorb loads.

FEATURES

- seat available in polyurethane or bamboo
- polyurethane rated for outdoor and indoor use

DIMENSIONS

- Diam. 15.7" x 17.3"H
