# Vegetal

Ronan & Erwan Bouroullec

## DESCRIPTION

Vegetal is a chair inspired by organic growth and the underlying concept of replicating structures found in nature. Available in unusual colors, this is a most unusual chair. While intended for outdoor use, we've placed it indoors quite a few times. Vegetal can be stacked up to three chairs high, which permits flexible use in a variety of settings and in large numbers.

## FEATURES

- seat and base dyed-through polyamide
- four-leg base
- stackable

## DIMENSIONS

W 23 3/4" x D 21 3/4" x H 32" x SH 18"
