# Visiona Stool

Verner Panton

## DESCRIPTION

Verner Panton designed the Visiona Stool as part of the interior installation created in 1970 for his legendary Visiona exhibition in Cologne. The compact upholstered stool not only provides practical and comfortable seating but also adds vibrant color accents that can be coordinated with any interior, thanks to the large selection of fabric colors.

## FEATURES

- Secured with an elastic band, which makes it simple to remove and clean
- Upholstery made with polyurethane foam with polystyrene core and polyester filling

## DIMENSIONS
