AJ Floor

Arne Jacobsen

DESCRIPTION

Arne Jacobsen designed the AJ Lamp for the SAS Royal Hotel in Copenhagen (Radisson Collection) in 1957. Today, the AJ family is regarded as the design that the Danish architect is best known for all over the world. At that time, the AJ family comprised a table and a floor lamp as well as a wall lamp, a small table lamp and a table lamp that was designed to attach to the table. The wall lamp could be found in beautiful rows in stainless steel in the lobby when the hotel was opened in 1960. In combination with the pendant AJ Royal, the AJ Lamp formed part of the overall design concept that Jacobsen created for the hotel. Arne Jacobsen did not just design the hotel down to the smallest detail for SAS (Scandinavian Airlines), he also designed almost all the hotel's original furniture and utility items.

The fixture emits downward directed light. The angle of the shade can be adjusted to optimize light distribution. The shade is painted white on the inside to ensure a soft comfortable light.

FEATURES

- Finish: Black, White, Pale Petroleum, Electric Orange, Soft Lemon, Warm Sand, Dusty Blue, Warm Gray, Black w/ Brass stem, Warm Gray w/ Brass Stem, or Polished Stainless Steel

DIMENSIONS

- 10.8" x 51.2"H
