Alba

Mariana Pellegrino Soto

DESCRIPTION

The concept of Alba starts with a very simple element: the designer's imagination was inspired by a drop of water – which she puts to use in different ways, depending on the model. References to the world of nature, with soft shapes contrasted with square lines, together with the use of a satin brass finish and anodic bronze finish, combine to create Alba, a family with a strong visual impact.

Two floor-standing versions complete the project: in both versions, a large rectangular-section stem with a satin brass finish and anodic bronze finish arises from an anthracite base. In the first version, the Alba 382, an arm branches off from the top, with a sphere suspended underneath it, while in the second, the Alba 383 two arms of different heights, on each side, support the luminous drops, one from above and the other from below.

FEATURES

- Floor lamp giving diffused light in polished opaline blown-glass.
- Finish: Satin Brass or Anodic Bronze
- Feature: universal dimmer

DIMENSIONS

- Alba 382: 11.2" x 11.2" base x 63.4"H; Alba 383: 11.2" x 11.2" base x 67.7"H;
