Amelie Dining Chair

Rodolfo Dordoni

DESCRIPTION

The enveloping lines of the Amélie little armchair ensure the perfect blend of elegant proportions and ergonomic comfort.

The padded structure is made of a cold-formed foam shell covered in soft padding and rests on a base available in two finishes: solid ash with open-pore Chestnut or Moka stain and solid beech with glossy lacquer finish in Sand, Granite or Mud. The option to choose the base, and the many different upholstery selections available for the seat, make Amélie an especially versatile chair that can lend understated elegance to any type of decor. The Amélie little armchair comes in versions with fixed or swivel base and can be paired with all the tables in the collection.

FEATURES

- available both in the "Dining" and "Lounge" options
