Andersen Slim Sofa

Rodolfo Dordoni

DESCRIPTION

Andersen seems to float above the floor! Thanks to the slight inclination of the seat and the inviting softness of its cushions, it provides the utmost in comfort. These qualities of restrained elegance make Andersen the ideal marriage of design and classic perfection, ready to infuse a room with modern, minimal-chic sophistication.

Andersen Slim 103 features slimmer armrests placed at the same height as the seat back, and is crafted to accommodate any number of cushions placed to suit the whims of need or fancy. Out of seeming chaos arise free-form arrangements of striking effect. With its raised base and feet in pressure-cast aluminum with pewter-colored finish and a single bench-seat cushion, Andersen Slim 103 offers graceful lines and spare dimensions for a visually light and comfortable effect.

Andersen Slim sofas are also available in a version with seat depth trimmed to 90cm. This detail, along with the slim armrest, makes it possible to craft smaller pieces suited to lounges, waiting rooms, corporate offices and suites. Andersen Slim 90 features a single, smooth seat cushion; while the Andersen Slim 90 Quilt has the seat seat cushion embellished with a lightly quilted motif. Both are available only with the raised frame
