Atlante

Pianca Studio

DESCRIPTION

Simple, clean lines combined with precious and sophisticated material details give Atlante its distinctive as well as versatile connotative presence: a line of units with regular and oversized drawers designed to sit happily in the middle of a room and feel at home in any interior. The drawer fronts match the color of the carcass and have handy finger grips set into the sides for opening. The top and the side trim details make the design truly unique: made from marble, mirror and glasses of collection they create a refined marriage of the classic and the modern, a quality that is clearly expressed in the essentiality of the volumes.
