# Bell Jar

## SkLO

### DESCRIPTION

The SkLO reinvention of the classic bell jar, rendered here in substantial handblown Czech glass, includes three different sizes and proportions rendered in four glass colors. The SkLO *bell jar* has an open neck with fire polished top edge, and an open bottom with ground and polished edges. These sophisticated modern updates on the classic work on their own as objects, or can be used to present other objects in the traditional bell jar presentation.
