Block Outdoor

Rodolfo Dordoni

DESCRIPTION

With its sculptural look and frame in solid wood inspired by Brutalist architecture, Block Outdoor stands out for its big personality.

Structured in the form of a block of solid wood, the base of the Outdoor version of the Block coffee table retains its solid volume in the shape of an "L" or an upside-down "T", but it is proposed in natural teak.

The top, with smooth edges resembling a river pebble, and tactile finish, is available in Pietra del Cardoso or with a plastic look in White glossy lacquer plastic finish.

The Block Outdoor coffee table is available in two different heights, both with rectangular top.
