Boiserie legno

DESCRIPTION

Creativity and personal taste have plenty of room to express themselves. Planning the bedroom is a matter of composing surfaces and choosing their characteristics using a modular wood paneling system. Available matt or high gloss lacquered, soft-touch, in wood, with textured finishes, faced with stone, padded or upholstered in fabric or leather, our panels can be fitted with rear lighting and spacers in metallic, lacquered or wood finishes. They can be coordinated with all Pianca platform beds and integrated with other modules such as shelves and storage units.
