Boteco

Marcio Kogan / Studio Mk27 Design

DESCRIPTION

The Boteco coffee tables reveal the Brazilian architect's architectural approach and are characterized by their lower height and the impressive 8cm thickness of the top, which hosts a built-in tray.

They come both in Eucalyptus wood in matt lacquer finish and palisander Santos in matt polyester lacquer finish, both combined with the Sahara Noir marble, matt polyester finish, covering the built-in tray.

Alternatively, a top in Grigio Orobico marble features a lowered metal tray with a Golden-Brown finish, like the legs. The edge of the tray protrudes from the top by 15 mm.

The clever juxtaposition of different materials and their combination, creating an elegantly harmonious look, are the result of the research done by the Brazilian design studio, supported by Minotti's know-how to manage joint projects.

FEATURES

- Top finishes:
 - Grigio Orobico marble
 - Palisander Santos* veneer, matt polyester lacquer finish
 - Eucalyptus veneer, matt lacquer finish
- Legs: in varnished Golden Brown colour.

DIMENSIONS

- 47" x 47" x 8"H
55" x 55" x 12"H
