Capri Base

Gordon Guillaumier

DESCRIPTION

Capri Base is the new edition of the iconic Capri armchair designed by Gordon Guillaumier.

The result of a design study based on subtraction, Capri Base appears as a sculptural form emptied inside to create a soft curved shell, made even more comfortable by its goose-down seat cushion. The only concession to geometric rigour is the square Pewter-coloured metal base on which the upholstered volume rests.

The side zips on the front of the armchair perform both an aesthetic function of decoration and a practical function, as they make the cover removable: a tailoring detail that contributes to making this furnishing piece a timeless icon.

Capri Base can be completed with ottomans from the same family, available in two different sizes.

FEATURES

- upholstery available in a range of fabrics or leathers
- footstool available

DIMENSIONS

- W 38.625" x D 35.5" x H 27.5"
