

minima

Caulfield

Rodolfo Dordoni

DESCRIPTION

Three coffee tables with a natural bent for lightness. The emphasis could be on the design of empty spaces, since the use of materials has been reduced to the smallest possible extent. Thin columns supporting the minimal surfaces are all that is left. What a character, what expressive power, anyway! "Less is more".

Two new finishes – polished Light Gold and Black-Nickel – lend contemporary glamor to the family of Caulfield coffee tables.

The minimalist design of the structure is achieved through the subtraction of material and is then interpreted in two very different metal finishes – polished Light Gold that, with its elegant sheen, introduces a sophisticated decorative note to any setting; or Black-Nickel, for a more formal, understated look.

The combination of materials is unique, with round table tops that can be made in Black *pâte de verre* glass or in ash with open-pore Black lacquer finish.

The Caulfield coffee tables come in four different sizes and coordinate beautifully with all the chairs in the collection.

DIMENSIONS

Light Gold and Black Nickel:

13.8"Diam x 17.8"H

17.8"Diam x 13.8"H

23.6"Diam x 13.8"H

39.4"Diam x 13.8H

Silver:

17.8"Diam x 21.3"H

27.5"Diam x 18.1"H

39.4"Diam x 13"H
