Chloé Dresser

Pianca Studio

DESCRIPTION

The new collection of bedside tables and bedroom storage units designed for Pianca by Emmanuel Gallina is inspired by a cocooning setting and features warm, inviting colors.

A leitmotif and key feature of the whole Chloé line is the C-shaped carcass that encloses and structurally supports the individual elements. Curved and padded, it presents a gently shaped wraparound-effect silhouette, further highlighted by the upholstery, which can be fabric or leather. Exclusive and refined, Chloé's design is enhanced by the continuity of the surfaces, unbroken by handles. The drawers on the bedside table have a handy finger grip underneath, while the drawers on the chest feature recess in the wooden side panel so that drawers can be gripped at the side.
