Connery

Rodolfo Dordoni

DESCRIPTION

Contemporary, with a strong architectural appeal and pure lines reminiscent of the Mid-Century American spirit, the Connery seating system sports an exquisite aesthetic and design that instantly catch the eye. The clever combination of fine materials and sophisticated details adds a hint of couture to its design.

An extremely versatile seating system, in terms of both composition and combination of materials, Connery has a distinctive personality also expressed in the pairing of the original square and round chaise-longues.

With its geometric rigour, the base creates an original contrast with the softness of the seat, conceived as a single cushion punctuated by light stitching defining the width of the seat - 83 or 68 cm - and with the structure of the backrest and armrest, covered in channeled goose down padding. The backrest and armrest form a single volume, with a 45° split in the corner.

The Flap shelves reiterate the strip design of the structural base and make the system functional, offering stylish, surfaces on which to place objects. Covered in leather or Moka ash veneer, they dialogue harmoniously with the textures of the covering.

DIMENSIONS

Available in a wide range of dimensions and configurations

FEATURES

- Base:weight-bearing blades in extruded brushed aluminium with polished varnished Brandy color finish
- Available in a wide range of Fabric and Leather
- Flap element in leather or ash veneer with open-pore Moka colour lacquer finish
