

MINIMA

Coupé

Joe Colombo

DESCRIPTION

The Coupé series, designed by Joe Colombo, was initially conceived as a variation of the Spider family, created by the same designer, of which it has kept its base and stem. The simple, ingenious mechanism that connects the stem to the head makes it possible to direct the beam in several directions, by moving the dome up, down and sideways.

In 1968, Coupé won the "International Design Award" of the American Institute of Interior Designers in Chicago. It is part of the permanent collection at both the MoMA in New York and the "Neue Sammlung" Museum in Munich.

Available in two versions, with either a semi-cylindrical or a semi-spherical dome, over the years, many models of Coupé have been created (ranging between the historic table lamp to the floor and wall lamps), becoming one of the most renowned and appreciated Oluce collections.

DIMENSIONS

11" x 55"H

FEATURES

- Finish: Chromium-plated metal/Aluminium
- Color: white, Black
