Dalton "Chrome"

Rodolfo Dordoni

DESCRIPTION

A bookcase that can be the star player in any living space, thanks to the new finishes that lend it a strongly contemporary decorative allure.

The Dalton bookcase comes in a series of new finishes that multiply the number of ways it can be used and lead the way to new stylistic interpretations. The new finishes include the possibility of having the back panels finished in Warm Grey or Granite glossy lacquer, while the thick shelves are available in black sand-blasted oak. The vertical metal supports have a bright chrome finish and, unlike the Pewter-color painted versions, do not have the "mille righe" effect finish.

FEATURES

- Shelves finishes:
 - oak veneer open pore Black lacquered
 - palisander Santos* veneer, matt polyester lacquer finish
- Back panels finishes:
 - glossy Warm Grey or Granite lacquered with oak veneer open pore Black lacquered
 - glossy White or Granite lacquered, with palisander Santos* shelves, matt polyester lacquer finish
- Vertical metal supports: polished Chrome finish
