Dew

SkLO

DESCRIPTION

The *dew* pendant is an intense expression of the molten nature of handblown glass. For a diffuser, the *dew* pendant features a solid sculpted glass shape composed of layers of glass applied while hot, giving it a “dripping” appearance. The glass is permanently attached to the solid brass armature, which is hidden behind a brass cylinder. The light bulb is changed by simply lifting the brass cylinder upwards to access the socket. Note that the fixture also “uplights” slightly through the open top of the cylinder. The glass diffuser element is available in either clear glass or sandblasted glass, for two very different effects.

FEATURES

- brass canopy with exposed fasteners
- Standard metal finishes: dark oxidized / brushed brass (other finishes available on request)
- Two glass colors available (including clear)

DIMENSIONS

- 5.5"Ø x 12"H with 12", 18", 24", or 36" rigid brass stem (custom lengths available)
