Empty

Jörg Boner

DESCRIPTION

Working together with Oluce for the first time is Jörg Boner, who designs Empty, a pendant lamp. This is an object that achieves the perfect balance between simplicity and sophistication. Like a shell, the outer cap, with a classic line, smooth and rounded, contains a second cap consisting of a series of aluminum strips, bent, and laser-processed, which unfold like a fan reflecting the light in the space. The distinctive color combinations between its exterior and interior contribute to giving this lamp, available in white/copper and bronze/copper, a bold personality.

FEATURES

- Finish: Bronze or white exterior with satin copper interior

DIMENSIONS

- 23.25"Ø x 12.6"H
