EXTENSION

Bruno Fattorini

DESCRIPTION

The new range of Extension tables excellently combines the aesthetics with the functionality of an extension product, thus meeting market demands.

The system's flexibility is emphasized by the presence of one or two extension tops measuring 50cm each and resting on the frame's slide rails. According to the customer's needs, the nominal length of the table can be increased from 50 to 100 cm, to accommodate an unexpected guest or to adapt at best to the environment.

FEATURES

- The laminate tabletops and extension tops in Fenix are built-in and are reinforced internally by 8mm thick aluminum sheets
- The tables are available with one or two extension tops
- The legs and perimeter frame are in extruded aluminum, available in epoxy powder matt painted version
- Two levers on the under top rails make it possible to lock the push-in and pull-out operations
- The extension tops slide into an epoxy powder matt painted tray, equipped with non-scratch lining

DIMENSIONS

- 35"W x 63"W(83-102 ext) x 28"/29.5"H
35"W x 71"W(90.5-110 ext) x 28"/29.5"H
35"W x 79"W(98-118 ext) x 28"/29.5"H
38.5"W x 63"W(83-102 ext) x 28"/29.5"H
38.5"W x 71"W(90.5-110 ext) x 28"/29.5"H
38.5"W x 79"W(98-118 ext) x 28"/29.5"H
