Favela (Immediate Delivery)

Fernando And Humberto Campana For Edra

DESCRIPTION

The beauty of Favela lies in the choice of natural materials combined with the apparent simplicity of construction. In reality, the armchair is the result of a week of work and great manual expertise. Without any internal frame, Favela is made with many strips of natural wood, similar to those used to build the shacks of the favelas in Brazil. Pine for indoor use, teak also for outdoor.

Available for immediate delivery from Philadelphia, PA
