Flirt

Rodolfo Dordoni

DESCRIPTION

Designed as a jewel-sculpture, with its metallic glints, the Flirt coffee table adds a bright touch to interiors.

The structure, made entirely from a sheet of polished stainless steel, is bent to form two "C"s facing one another, offering two semi-circular tops on different levels.

Like an artist's multiple, Flirt only comes in one size and is varnished in Black-Nickel or Gold. The screws that join the two C-shaped elements serve as decorative details, enhancing the metal sheet.

FEATURES

- Structure: polished stainless steel sheets available in Gold and Black-Nickel colors

DIMENSIONS

- 14" x 12" x 16.5/20.5"H
