# Flow Leather

Jean Marie Massaud

## DESCRIPTION

Flow Chair and Flow Slim's smart, simple and eye-catching design, crosses the boundaries of its democratic cross-cutting nature, changing skin and turning into an even richer, elegant and tailor-made product, to meet the needs of a market aiming at refinement.

This is how Flow Leather was born.

Jean Marie Massaud's chair comes coated in two types of leather. The former, Anilina leather, is offered in seven different colors. It is micro-perforated externally, while inside it is smooth. It is premium leather, suitable for specific home environments such as dining rooms, living areas, but also for home office and smart working spaces. The second type, Nuvola leather, conceived for business and public venues such as restaurants, hotels, offices. It's a leather micro-perforated internally, while it is smooth on the outside: it is a contemporary, dynamic, high-impact covering, which at times recalls the look of sports car seats and comes in 11 color tones.

Flow Leather enriches the already large Flow family, with new suggestions and emotions.

Every armchair can be customised thanks to two different types of leather, to the alternation of smooth leather parts and parts in microperforated leather, and to matching or contrast stitching

## DIMENSIONS

Available in a wide range of dimensions and configurations

## FEATURES

- Two different types of leather
- Inner and outer sides of the shell covered with smooth leather or micro-perforated leather: Base available in:
  - VN 4-legged steel, central leg,
