Gong

Gianfranco Frattini

DESCRIPTION

Emblematic of the rigorous designs of Gianfranco Frattini, the Gong side table reemerges with his quintessential grace and flair of form, now in diverse heights and diameters — a family of proportions for sculptures, plants, and other decors. In a muted brushed finish of brass or gunmetal, the metals present a new emphasis on materiality, with a column in the same color or contrasting in brass, and a tabletop and base in iron, all in gleaming, elemental purity.

FEATURES

- The side tables are entirely painted in gunmetal or an orbital bronze finish

DIMENSIONS

- Ø11" x H32"
Ø17" x H18"
Ø17" x H22"
Ø22" x H14"
