# Goodman

Rodolfo Dordoni

## **DESCRIPTION**

With a clear 1970s imprint, the inspiration behind this design is the graphic character of those years. The Goodman sofa uses the distinctive styling of matelassé stitching. Which, draws shadows and light on the seat, creating the sensation of a quilted cross-padding.

The system sits on refined metal feet, which are set back from the edge. Creating the optical effect of suspension, which in turn enhances the visual softness of the seat, offering a super-comfortable welcome.

The volume of the one-piece seat is particularly ergonomic and comfortable thanks to the use of the innovative technology used: the system of pocket springs is combined with a layer of polyurethane padding in layered densities that give a consistent sensation of softness and coziness.

Compactness and softness come together in the same sofa concept, making it suitable for both formal use and for extreme relaxation; from the most traditional configurations to the more dynamic ones made possible by a series of individual components that animate the living space: end units, corner units, central units, chaise-longues. Each element is like a piece of a jigsaw puzzle to be joined with others to define its creator's own home environment.

The unusual accessory consisting of a contoured tray covered in saddle-hide, perfectly clings to the volume of the armrest just like a saddle, making the seating system fully versatile, since the cushioning can be turned into a functional coffee table always at hand. to draw inspiration from its aesthetic history and the extremely high quality of its tailoring details, evolving it with technology and sophistication.

## **FEATURES**

- Base made from a clever combination of materials: entirely in leather or fabric or in an original mix of both to create an even more refined and prestigious look.
- Available in a wide range of Fabric and Leather
- Available in Bronze or Polished Chrome metal feet with matching perimeter frame.

## **DIMENSIONS**

- Available in a wide range of dimensions and configurations
