Hanover

CTO Lighting

DESCRIPTION

Inspired by classic architectural structures and the linear nature of grand doors and terraces, Hanover borrows from the austerity of ancient stone structures and brings them under a new soft light. Base and shade are made entirely of glass, in which the translucent nature of the material softens and contrasts with the simplicity of the strong lines. The satin brass detailing adds luxury to this contemporary design that reflects the light in its entirety and fills the room with a soft glow.

DIMENSIONS

Ø15.2" x 23.6"H

FEATURES

- Finishes:
 - opal white glass with satin brass
