Heracleum Chandelier

Bertjan Pot

DESCRIPTION

This decorative LED lamp is inspired by the Heracleum Plant. The white lenses ramify from one branch creating a technical, natural structure. By using the technique of conductive layers, the lamp is thin and delicate. This is a design not possible with normal wires.

FEATURES

- metal wire frame, poly carbonate lenses, ultra thin suspension wire
- available in nickel and copper
- leaves freely re-positioned
- also available in linear and "big O" version

DIMENSIONS

Small: Ø28.3" x H21", cable 11.8" - 157.5"

Medium: Ø38.6" x H25.6", cable 11.8" - 157.5"
