Horizonte Coffee Table

Marcio Kogan / Studio Mk27

DESCRIPTION

In addition to the top, interspersed between the cushions, the Horizonte family also includes coffee tables and a side table.

The latter has been designed in perfect aesthetic continuity with the Horizonte seating system, from which it takes both the detail of the matt black varnished metal base and the thickness of the top: a horizontal groove engraved on the solid wood bullnose edge recalls the same concept of geometry used in the base.

The coffee and side tables also reflect the same style, with floor support in polished Bronze varnished metal and tops in Dark Brown stained Canaletto walnut or Licorice coloured ash. The different sizes and heights of the coffee and side tables allow for a play of superimpositions that invigorates the horizontality of the entire family.
