Horizonte

Marcio Kogan / Studio Mk27

DESCRIPTION

A floating island with square lines that marks the horizon of the living space.

The Horizonte modular seating system is the result of a clear architectural vision: a rigorous shape, raised seven centimeters off the ground thanks to a recessed plinth in matt black varnished metal, which gives the sofa a special feeling of suspension. A platform on which the upholstered elements are located – seats, backrests, and armrests – all conceived as large cushions with bold proportions and a strong personality.

It is not only the dimensions that characterize these modules, but also their unprecedented softness, capable of maintaining a precise formal aesthetic, despite their welcoming sinkable effect. Comfort is in fact guaranteed by an innovative technology that uses pocketed springs inserted in variable-density polyurethanes that allow the memory of the shapes to be maintained and the seat to return to its original form, modeling itself to the shape of the user.

The seemingly simple appearance of Horizonte gives rise to a sophisticated style code that can be used in a wide range of configurations. By combining modules, sloping elements, and others with built-in coffee tables, an overall narrative that could continue forever without interruption is created.

FEATURES

- Base made from a clever combination of materials: entirely in leather or fabric or in an original mix of both to create an even more refined and prestigious look.
- Available in a wide range of Fabric and Leather

DIMENSIONS

- Available in a wide range of dimensions and configurations
