# Kenneth

Rodolfo Dordoni

## **DESCRIPTION**

The Kenneth sideboards are designed based on the combination of its strong rigorous geometric volume and the slender support of the Black Coffee metal legs that lift it lightly off the ground.

With an unprecedented height that echoes that typical of the classics of yesteryear, Kenneth immediately becomes a timeless icon.

The Licorice ash or Moka glossy lacquered storage part features a thin top in Nero Marquina marble or Stone Grey matt polyester, giving the piece an elegant and refined aesthetic. With its strong scenic presence, Kenneth represents a new way of storing objects in a living space: an essential and sculptural furnishing piece, decorative yet functional, capable of translating solidity and lightness into a unique stylistic language.

It is available in two versions: living, with a lower height storage element, and dining, characterised by a higher volume for the storage part and also equipped with a cutlery tray in black saddle-hide.

## **FEATURES**

- Top available in a variety of marbles, legs available in a Black Coffee colour finish tubular metal.

## **DIMENSIONS**

- 94.5"L 21.5"W 35.5"H
