Kin

Francesco Rota

DESCRIPTION

A cast aluminium body with a Led core are the characteristic structural elements of which Kin is made, masterfully combined in Francesco Rota's design of this suspension lamp of an explicit yet refined beauty. The flared shape of the body, with its slim thicknesses, is closed with a methacrylate disc from which its LED light is diffused. Available in two different sizes and in two finishes – satin gold glazed and anodic bronze – Kin can be introduced both into a wide range of domestic environments and into an infinite variety of contract solutions.

FEATURES

- Finish: Satin gold glaze, Anodic Bronze

DIMENSIONS

- Ø5.9" x 5.11"h x 94.5" suspensions cord
Ø11.8" x 10.23"h x 90.6" suspensions cord
