Kyoto- Quick Ship

DESCRIPTION

The complements of the Kyoto bedroom set, the dresser and bedside table, are the result of the study of the absolute section between corner and straight line, in a measured composition of surfaces. The outer frame, more pronounced and deeper, encloses push-pull opening drawers, defining the entire volume of the structure with stark gracefulness. The top transforms into an open niche, a discreet, elegant support surface. The cantilevered base floats, creating a void which surrounds the elements, giving them a sense of impalpable lightness.

QUICKSHIP OPTIONS:
