Leadchair Management

EOOS

DESCRIPTION

Modern minimalism. Leadchair Management is the swivel chair that suits modern working and conferencing. A strong character, appropriate and enduring. For the company, a statement about how it sees itself and how it appreciates its users.

Innovative upholstery craftsmanship and meticulous metal finishing based on experience: the design of lines and surfaces reveal the true elegance of the range. The cover for the seat and back is applied directly to the foam-molded upholstery. Gaps enable body heat to circulate better, your spine is given optimum support, your shoulder blades can move freely. The base seems of a piece. All components and lines are precisely defined to create a harmonious whole. Transparent and honest: the function of the synchronized mechanism. Comfortable sitting for sustained performance – even over hours in intensive business meetings.
