Lido

DESCRIPTION

The solidity and confidence of those who feel up to any challenge: solid wood expresses all its tangible sturdiness through the types available in our collection. It has a sharp, bold way of declaring its presence while using details to soften its style, such as slightly tapered volumes and corners rounded by hand. The classic frame with an incorporated headboard gains a new appeal thanks to its refined, contemporary design. The slatted panel of the headboard – to which two soft, shaped cushions can be added – makes it look lighter.

FEATURES

- Headboard cushions are optional
