# Load it Desk

WOLFGANG TOLK

## **DESCRIPTION**

Load-it is a versatile book shelving system that can fulfill different daily functions. It is made up of thin L shaped shelves in highly resistant, wax-finished steel, as well as painted in white or in the special burnished brass, porphyry grey or antique red finishes. The product is completed with wall panels that are available in many customizable sizes and in a variety of finishes. Another peculiarity of Load-it is the possibility to mix it with the Modern system so as to further increase the range of compositions and uses of this very plain bookcase. Modern is a sectional and flexible container system. It has been created to fit spaces using clear and essential elements, marked by precision shapes, excellent finishing and high pure project.
