Lou

Christophe Delcourt

DESCRIPTION

Available in various sizes and finishes, arranging Lou coffee tables near one another calls to mind a charming domestic landscape.

The construction of these tables is especially complex and combines modern technology with cabinetmaking tradition. The contoured internal structure is in MDF, sheathed in larch veneered plywood, which is then milled along the curved edges. The larch base in Licorice lacquer finish is paired with flush-set tops made of materials designed to create unexpected contrasts. The class of Calacatta marble and the depth of pâte de verre marry well with the texture and feel of the wood.

The Lou collection also includes a coffee table with a swivel base in larch with Licorice color lacquer finish. The top is in Calacatta marble or in black pâte de verre. The open compartments are sheathed in Bronze color satin finish metal. This coffee table fits seamlessly in the bedroom, in place of a traditional bedside table, as well as in the living room, paired with any of the seating options in the Minotti collection.

FEATURES

- Top finishes available in: Calacatta marble or Black pâte de verre
- Structure: contoured interior in MDF brushed larch veneered, open pore lacquered Licorice color
- The swivel coffee table comes with two compartments sheathed in metal with Bronze color satin finish.
